MELBOURN PARISH COUNCIL
Full Council Meeting : 25 October 2021

Item : PC098 21a) Minor amendment to Deed of Easement

Morning Graeme,

Following our emails last week, please now find attached a PDF engrossment version of the Deed of Easement with the annexures.

Please note that there has been a minor amendment to the Programme (section 11) of the RAMS to include the wording shown highlighted yellow below, which I trust is agreeable.

11. PROGRAMME

The works duration is outlined in the above sequence of operations (section 4) which show a duration of 4-5 weeks for the works.

The timescales are not project-critical. That is because we can use the pumping station to facilitate the construction phase and hence, we can be flexible around the football season to minimise nuisance caused.

See below a suggestion of the proposed programme following approval of the RAMS. The final programme is subject to approval from the Local Highways authority and will be finalised following consultation with the Parish Council and the Secondary School.

Project Birchwood
Melbourn Science Park Limited

Line	Name	Start	Duration	Finish
	Offsite Drainage Works Programme			
2	Establish culvert crossing & haul road	04/10/21	1w	08/10/21
