

# MELBOURN PARISH COUNCIL

District of South Cambridgeshire

**Meeting: 22 October 2020 (Maintenance Committee)**

**Agenda Item: MA057 20h)**

**Date of Report: 15 October 2020 : Dynamos request for flood lighting on Old Rec**

---

Melbourn Dynamos have made a request to access power from the Cadet hut for new portable floodlights. This item arises because the floodlit Astro Turf normally used for winter football training is out of action due to the massive investment & redevelopment of the Astro going on presently.

Essentially, Dynamos will self-fund the lighting hardware but need access to electric power. There is a connection point at the Cadet hut that the fun fair use when they visit.

Issues to be considered are :

- (a) We will check this power supply is available to use if we want – we may need to liaise with Cadets.
- (b) If power is available, do we re-charge this to Dynamos?
- (c) If we give permission for Dynamos to set things going, they will need to provide a risk assessment.
