Dear Claire

Thanks for meeting with me to discuss these works, glad we did as we were obviously quoting totally different things

Worcester Way

1/ Repairs to the 240m length of fencing, as agreed make all areas damaged secure to stop anybody climbing under /over the fence. Some places need the strainer wires replacing or tensioning to strengthen the whole fence. Others are just replacing the wires. We would cut back trees where need be & relay the cuttings behind the new fence to try & discourage people from climbing through again.

Total £780.00 x Vat

2/ Renew timber C/B fencing using old concrete posts as discussed, the first section is still solid as we saw. We would remove any old debris from site afterwards leaving it tidy

Total £1290.00 x Vat

3/ Repair damaged post & rail fencing in 2 areas as looked at, Dennis & I had a conversation with the resident at no 7 whom has concerns of regular drug takings opposite his house. I'm sure Dennis spoke to you about this.

Total £440.00 x Vat

Should you have any questions please do not hesitate to contact me
