

MELBOURN PARISH COUNCIL

District of South Cambridgeshire

Meeting: 21 January 2021 (Maintenance Committee)

Date of Report: 18 January 2021

Agenda Item: MA088 20a)

Update on gulleys

Extract from County Cllr van de Ven's report:

Drainage: We met with the Highways and the contractor in mid-December to discuss Melbourn drainage concerns. A number of points of concern were established, including:

- no system for blocking off streets from parked cars, or returning to tend to drains inaccessible due to parked cars or missed out for other reasons.
- lack of resource to check-up on jobs commissioned and carried out.
- web reporting page map doesn't work on some mobile phones
- web reporting page response system unsatisfactory

To start again from scratch:

- Every gulley in the roads identified by Tim Stebbing to be emptied.
- If pooling/problems arise on any of these, please report. Team will return for jetting.
- If pooling/problems arise on any of these, please report. Team will return for underground investigation.
