- [Description](#)
 - - Seat height 490mm.
 - Made from 100% HDPE recycled plastic.
 - The Beamish Tree Seat Hexagonal fits around the trunk of a tree to make an ideal area for people to sit and relax in the shade on a hot summers day.
 - Its a great way to utilise smaller spaces and can provide a rest area for long walks.

- The Beamish Tree Seat Hexagonal is completely weatherproof meaning that it can be left outdoors all year round and the robust material will not be hindered.
- Delivered fully assembled.
- Maintenance free, does not rot, corrode or splinter and the colour does not fade in the sun.
- Ideal for any environment from school playgrounds and pub gardens to zoos, theme parks and play areas.
- 25 Year construction guarantee.
- Saves 2,488 milk containers from going to landfill.
- Weight: 87kg
- Height: 490mm; Width: 1700mm; Length: 1700mm; Internal Diameter: 600mm.
- Please note that due to the recycled manufacturing and extrusion process white flecks may appear on the finished product where the raw materials collate and bond - this is normal. If you require further clarification and example images of this please enquire in advance of making your order, as goods once ordered and produced to your order, cannot be returned.
- Our code: SFD2564.

These products are manufactured and shipped to order and as such are non-returnable or cancellable once placed. Leadtime for delivery is @ 14-21 working days. Please call us in advance of placing order if you require any further information. Schools can order by purchase order, but please pre advise on the contact telephone number below.

Details

A hexagonal shaped bench ideal for a single tree or wooded area. They can be manufactured in a variety of sizes to suit individual applications and have a backrest that also acts as a tree guard.

A great piece of equipment for playgrounds as social seating, outdoor classrooms or as reading/quiet areas.

Features:

- Constructed of heavy duty pressure treated and planned redwood timber
- Timber sourced from managed forests purchased from companies holding FSC certificates
- Timber treated with safe Tanalithe 'E' Hazard Class 4
- Can be constructed to fit around existing trees
