

MELBOURN PARISH COUNCIL
Maintenance Committee Meeting : 21 April 2022

Item: MA202 21g) Entrance to New Rec

Over the winter, the emergency access entrance to the New Rec become very wet with deep tyre grooves. The downpipe from Littlehands runs directly from the roof down the outside of the oil store and discharges water on to the ground. There is no soakaway or open drain. At the moment, the ground has dried out but the tyre grooves remain.
