

MELBOURN PARISH COUNCIL

Maintenance Committee Meeting : 18 May 2022

MA009 22a) Stockbridge Meadows maintenance

Report of maintenance issues on Stockbridge Meadow and other areas of the village.

Stockbridge Meadow:

- **Holes** : A resident reported that he recently visited Stockbridge Meadows on a mobility scooter. He noticed that there were a number of large holes on the pathway and felt these should be filled in as they were potentially dangerous for people using mobility scooters.
- **Benches** :
 - He reported that a number of the benches had weeds growing up around and under them making it difficult for people to sit down. *Wardens to trim.*
 - He also reported that some of the benches in SM (and also generally around the village) look quite worn and could do with varnishing/painting. *Wardens are currently pressure washing all benches. Benches will then be treated with teak oil.*
- He said that someone has had a fire on the footpath in the middle of the meadow. *Wardens to inspect area.*
