Maintenance Committee Meeting : 18 May 2022

MA012 22c) Request to local skip on verge

I received a request from a resident to site a skip on the verge adjacent to her property. Currently, the resident on Rose Lane has a skip on her driveway. As Rose Lane is so narrow, the skip lorry has to reverse onto the driveway of the property opposite to drop off/collect the skip. The owner of the neighbour has expressed concern about damage to his driveway/drains.

The resident has asked if she could have permission for a skip to be placed on the grass verge next to her property. The verge is at the top of Rose Lane / Dolphin Lane and is a fairly steep grassed verge. The skip would probably be on site from end June for +/- one month.

I said that her request would need to be considered but that issues to be considered would be:

- Damage to the grass on the verge;
- Safety issues as the verge is quite a steep bank.
