

MELBOURN PARISH COUNCIL

Maintenance Committee Meeting : 18 May 2022

Small appliance bin – suggested locations

---

A representative from Greater Shared Waste Cambridge came out to look at possible locations for the small appliance bin.

The wardens had proposed putting the bin on the grass verge in the car park. The representative said this area would only work if the surface was made flat and concreted/tarmaced with a drop curve. (The bin can become very heavy and for health and safety a drop curved is needed to access the bin.) If the PC carried out this works, Greater Shared Waste Cambridge would reimburse the cost. The representative proposed 2 other locations:

Near the door to the wardens workshop –

At the side of the wardens work shop –

The representative confirmed that the bin can be on a footpath providing a wheelchair/pushchair has space to pass. Please see the dimensions of the bin below:

H = 135.4 cm  
W = 121 cm  
D = 107.3 cm

The bin will be emptied weekly or more frequently if required, and any fly tipping will be collected as well. At the moment, the Parish Council have only decided to have the bin for a 3 month trial period.
