**Report on New Road Cemetery**

---

We have had a look up New Road cemetery – findings:

- There is one dead tree in the cemetery and three Himalayan birch need replacing.  
*Trees to be replanted in the autumn*
- We have removed unnecessary supports.  
*Monitor other trees.*
- The mound needs weedkilling and cutting also for some reason the path up the mound has concrete edging up one side and wood on the other (which has rotted away).  
*Quote for replacement wooden edging requested.*
