Dear Claire

As we discussed, the ground round the goal mouths has really worn down, this has caused quite a dip. I have been asked by the football clubs if we could add extra soil & seed the wider areas when we do the goal mouth repairs.

Supply topsoil & seed, prepare the ground ready, rake & level soil out to allow us to then seed the areas & cover over with soil

We would fence the areas off afterwards

THIS NEEDS TO BE DONE ASAP OVER THE NEXT WEEK to ensure areas are ready for the new season

Total for works £580.00 x Vat

Should you have any questions please do not hesitate to contact me

Kind Regards

Justin Willmott
