

MELBOURN PARISH COUNCIL

MAYD Joint Committee : 28 June 2022

To consider youth club provision over the summer holidays

Connections Bus (07887 947748 - <https://www.connectionsbusproject.org.uk/contact-us>).

Availability

- They have availability for a session over the summer holidays (25 July for 6 weeks) on a **Wednesday from 4 – 6pm**
Minimum of 3 youth workers (*they are checking they have sufficient youth works for the session – will be back to us*).

Facilities

- The bus has games consoles, craft activities, they have a weekly quiz, Bluetooth for music, outside sports (if there's a suitable space) and a full tuck shop.
- They would find a suitable spot to park – probably outside the college would work

Promoting youth club

- They would provide posters/flyers for us to share and would also make contact with MVC to promote the youth club (*although over the holidays this may be limited*).

Registration and reporting back

- Young people must register at the first session and they record who attends each week. I said we would need to know which village the young people were from.
- I asked about max numbers and Alan said they had 60 at a recent session but that was not all at the same time and included young people doing outside activities. He said people tend to come and go during the session.
- They would provide a full report at the end of the block of sessions with details of activities, numbers and specific projects that they may cover.

Cost and moving forward

- Cost would be £300 per session.
- They would need 4 weeks' notice to set something up (*so by 29 June 2022*).
