MA055 22a) Request for tree work in Orchard Road Cemetery

Good afternoon,

Our back garden backs onto the Orchard Road Cemetery. There are tall trees that border us and the Cemetery. A few years ago it was arranged for the trees to be cut back, they have since grown quite considerably and are in need of cutting back again. Currently we have large branches that fall from the tree on to our patio (some are quite substantial chunks that could cause injury).

Who do we contact about getting the trees looked out with a view to having them felled, preferably before the winter months? 3rd picture is of a tree that has fallen into the neighbours garden.

Many thanks

Medcalfe Way, Melbourn,
