Dear Claire

As requested by Jose Hales, were quoting to remove shrubs from the triangular bed at the rear of the hub.

We would cut down the shrubs, grind out the stumps & then dig out to allow us to put in a subbase, following this we would concrete the area leaving a strip against the building the same as the area next to it to allow drainage between the building

We would cover over from the weather & fence off to allow to go off

Site would be left tidy

We could do this fairly quickly

Total for works £400.00 x Vat

Should you have any questions please do not hesitate to contact me

Kind Regards

Justin Willmott
