District and County Councillors' Report - Melbourn Parish Council November 2022

Melbourn flood investigations and heat map

We had a fruitful meeting with County and District flood risk and watercourse management officers and will be meeting again in December to look at some idea for curtailing persistent problems in a particular part of the village. Meanwhile they have asked us to come up with a heat map for flood hotspots in Melbourn – we would welcome any input from anyone with local knowledge.

Meanwhile we have arranged to meet with Anglian Water again in January, to catch up on key issues in our area. Please feel free to let us know of any concerns that can be shared.

Bus meetings – important to think ahead

Bus user group meetings have been organised for Dec 6 and 9, covering Bassingbourn, Meldreth and Melbourn, once again to seek bus users' input for any future changes to services – and to hear from people who would use the bus if the service met their needs. This will feed into a response to the Making Connections consultation (see below).

People are invited to attend any of these meetings. There are plenty of family ties across the villages.

- Dec 6, 10AM Bassingbourn Old School
- Dec 9, 12PM Meldreth Elin Way Sheltered Housing Room
- Dec 9, 2PM Melbourn Hub

Community Chest Cost of Living support

SCDC's Community Chest fund provides grants to voluntary and community sector groups, charities and public sector bodies wishing to further improve quality of life locally. Criteria have been expanded to allow bids that include contributions for any project that has a positive impact for communities related to the cost-of-living crisis. Parish Councils of any size can also now place grant bids.

A ringfenced total sum of £20,000 has been made available for these new Community Chest grant applications, provided by the Cambridgeshire and Peterborough Integrated Care System, to ensure support is co-ordinated effectively and directed at those in need locally this winter.

Help for Households campaign – social tariffs

The government has worked with a range of Internet Service Providers (ISPs) and Mobile Network Operators (MNOs) to deliver low-cost broadband and phone service packages, called social tariffs, for those on low incomes. Social tariffs are available for people claiming Universal Credit, Pension Credit and some other benefits, with some providers offering deals from £15 a month.

Warm Home Discount scheme reopened

The Warm Home Discount scheme will provide a discount of £150 off electricity bills for three million low-income households this winter. Most households will receive the discount automatically. The government has launched a new online tool, to make it easier for the public to check if they are eligible for the discount. The online tool will guide customers through the eligibility criteria in England and Wales, asking questions about electricity supply, the benefits they receive and characteristics of their property. All customers will receive a letter between this month (November) and mid-January 2023 confirming their eligibility and the payment will be made automatically through energy suppliers by March 2023. The government is also writing to customers who may be

eligible, advising them to use the tool linked below to check eligibility, as well as to use the helpline for particularly complex cases.

Consultation on changes to Local Council Tax Support scheme

SCDC is proposing to make changes to its Local Council Tax Support scheme, in light of the cost of living emergency. This scheme provides financial assistance to low-income residents with their Council Tax bill. The aim of the proposed changes is to increase the support provided to residents, including those who are on lower incomes and in work, and our most vulnerable residents. We are now consulting with all residents and stakeholders to gain their opinions on the proposed changes. A consultation has just got underway and runs until 5pm on Wednesday 14 December 2022.

Ukraine – new hosts for guests needed

Cambridge and South Cambs have between them about 500 hosts for Ukraine guests. With the war in Ukraine continuing, the six-month hosting arrangements have needed to be renewed, though not all hosts are in a position to do so. Anyone who might be able to provide a spare room for a guest from Ukraine is asked to get in touch with SCDC.

Free trees offered to parish councils

Trees are being offered to parish councils across the district to help provide homes and food for wildlife and combat climate change. The Six Free Trees campaign is into its third year and has seen 390 trees planted across South Cambridgeshire since it was launched. This is one of a range of initiatives by South Cambridgeshire District Council which supports its ambitions to double nature and get the district to net zero by 2050.

Trees can be chosen from a list of native varieties including field maple, alder, silver birch, hornbeam, hawthorn, beech, wild cherry, oak, rowan and crabapple. Bio-based and compostable guards, stakes and ties will also be supplied.

Parish Councils have until 21 December 2022 to apply; trees will be delivered from 30 January 2023.

Community Rail Partnership accreditation

The Meldreth, Shepreth and Foxton Community Rail Partnership has received accreditation status from the Dept for Transport for the third consecutive year. This is a mark of excellence in terms of financial stewardship, collaboration, community involvement, and trust. It also allows our CRP to access special Community Rail funds for local projects. Our thanks to Sarah Grove, our Project Officer, whose outstanding work has made this possible.

CCC business planning for 2023-24

The council faces a budget gap of about £29 Million due to inflation, as we have reported previously. At the time of writing, much work has been done to close that gap ahead of the February budget meeting, but a £13 Million gap remains to be filled. Detailed papers on service areas will go to December committees.

SCDC – Four-day week feedback?

We'd be very pleased to hear any further comments on the SCDC Four Day Week proposal.

'Making Connections' consultation – Future bus services, more walking and cycling links, and a Cambridge City Access congestion charge

The Greater Cambridge Partnership 'Making Connections' 2022 runs until 23 December 2022. This is about a completely different way of running bus services, more active travel links and a congestion charge for Cambridge. We are being asked to share this information as widely as possible, and to encourage everyone to respond. Points of local detail are vital and in their best form these can only be provided by local residents based on their everyday travel needs.

The proposals are a once-in-a-generation opportunity to change how we travel in Greater Cambridge and the wider area, relieving pressure on the road network and responding to air quality, cost of living and climate crises; and also, creating workable public transport and active travel links in more rural areas where currently, costly private vehicle transport is the only way to get to jobs, education and other essential daily travel needs.

We will be submitting a response from the villages we represent based on any feedback received, in mid-December.

The survey, plus information about the proposals, including maps, frequently asked questions, dates of public meetings etc can be found at: <http://www.greatercambridge.org.uk/mc-2022>

Residents and those travelling to the area are asked for their thoughts on the three parts of the proposal:

Transforming the bus network

From mid-2023, GCP is proposing to transform the bus network through new routes, additional services, cheaper fares and longer operating hours. Please check the proposals and add your comments: are these satisfactory or is there a better way?

Investing in other sustainable travel schemes

Alongside the bus network, GCP is proposing to invest in new sustainable travel schemes, such as better walking and cycling links. Again, input is needed.

Creating a Sustainable Travel Zone

GCP is proposing the introduction of a Sustainable Travel Zone which includes a road user charge. Vehicles would be charged for driving within the zone between 7am and 7pm on weekdays, and money raised would fund improvements to the bus network and other sustainable travel schemes. The Zone would be fully operational in 2027/28 but only after the bus improvements are introduced. Again, your input please.

None of these parts could work without the others and the fundamental premise is that attractive alternatives to driving must exist prior to the introduction of a congestion charge – which once in place would provide the revenue to run the scheme long-term. The initial set-up outlay would be funded by the Greater Cambridge Partnership, itself funded by central government on a time-limited basis.

November Community Police meeting results

Three members of Cambs Police came to the Melbourn Hub in early November to talk about community policing. The key points arising were actually about the opportunity for better communication. We noted these items:

- Parish councils, parish newsletters – do Police have updated contact details for systematic periodic sharing of information?
- Ecops – how to subscribe?
- Coffee with a Cop – Are these regularly scheduled, with advance notice published in local outlets and shared with councillors to help publicize?
- Quarterly virtual meeting for the public to meet Police –Hard to find information on Police website.
- All ways to report or inquire. 101 on-line reporting, live chat.
- Synopsis of crime patterns in South Cambs, things to look out for – how best to access this information?

We also need to look at a reset of the Melbourn Practical Solutions Group given that the Police are now generally not available to attend, due to a much smaller pool of staff.

If the type of policy we sell reaches specific profit targets, the insurer may also pay us an additional bonus. In some cases we do not receive any commission and will charge a fee for the services provided.

You are entitled, at any time, to request information regarding any commission which we may have received because of placing your insurance business or arranging premium finance.

Please be assured that at no time will the way in which we are remunerated conflict with our responsibilities to meet your needs and treat you fairly.

Block transfers

In respect of some classes of insurance, we may operate block insurance arrangements to provide competitive terms. This is where we place all insurances of a certain type with one insurer who can provide particularly competitive terms for all our customers.

On occasions it will be necessary for us to transfer such blocks from one insurer to another where this is beneficial for our clients. This Terms of Business Agreement constitutes both your acceptance that we may do this and your prior request for us so to do.

Protecting your money

Prior to your premium being forwarded to the insurer (or forwarded to you in the event of a premium refund) we generally hold your money as an agent of the insurer with which we arrange your insurance. Where we hold premium as the agent of the insurer it is regarded as received by the insurer.

If we are not acting as an agent of the insurer when we receive your premium, we shall hold it as client money in trust for you within a client bank account with an approved bank. Our client bank account(s) may contain other clients' money and money we hold as an agent of insurers. In line with strict FCA rules, our client bank account(s) is/are rigorously monitored to segregate and safeguard client money. We reserve the right to retain interest earned on our client bank accounts.

We are permitted to advance credit to other customers from monies we hold in a non-statutory trust client bank account. A copy of the trust deed under which our non-statutory client bank account has been established is available on request. You must notify us if you do not wish your money to be handled in this way.

We may transfer your premiums to the insurer through another party, such as a broker or underwriting agent for the purposes of effecting a transaction.

By accepting this Terms of Business Agreement, you are giving us your consent to treat your money in this way. Please notify us immediately if you have any objection or query.

Complaints

It is our intention to provide a high level of service. However, if you have reason to make a complaint about our service you should contact us immediately using the contact details on the first page above, or the contact details at our Principal Firm, Ten Insurance Services Ltd.

You may be entitled to refer the matter subsequently to the Financial Ombudsman Service. You can contact the Financial Ombudsman Service by telephone on 0800 023 4567 or online and further information is available at <http://www.financial-ombudsman.org.uk/>. If you do decide to refer any matter to the Financial Ombudsman Service, your legal rights will not be affected.

We will provide a summary of our complaints handling procedures should you make a complaint which we cannot resolve informally and at any other time, upon your request.

Compensation arrangements

We are covered by the Financial Services Compensation Scheme. You may be entitled to compensation from the scheme if we cannot meet our obligations. This depends on the type of business and the circumstances of the claim. Insurance advising and arranging is covered for 90% of the claim, without any upper limit.

For compulsory classes of insurance, insurance advising, and arranging is covered for 100% of the claim, also without any upper limit. The compensation scheme does not apply to consumer credit. Further information about compensation scheme arrangements is available from the FSCS on: -

0800 678 1100 or 020 7741 4100 or by visiting <https://register.fca.org.uk/s/>

Money laundering/Proceeds of crime

We are obliged to report to the National Crime Agency any suspicion of money laundering or terrorist financing activity and we are prohibited from disclosing any such report.

Adequacy of insurance values

It is the responsibility of the policyholder to ensure that all sums insured, and policy limits are adequate. Whilst we seek to assist in establishing and maintaining insured values and indemnity limits, we cannot accept responsibility for their accuracy. It is strongly recommended that the appropriate Professional (e.g. Surveyor/Accountant) be consulted to ensure that the sums insured and limits under the policy are suitable. Under-insurance in the event of a loss may lead to the claim not being met fully.

Conflicts of interest/Customers best interests

As insurance brokers we generally act as your agent in advising you, arranging your insurance and assisting you in the event of a claim; we will always act honestly, fairly, and professionally ensuring your best interests are our priority. In certain circumstances we may act for and owe duties of care to insurers and/or other parties.

Where we become aware of any actual or potential conflict of interest with our duty to you, we will inform you of the situation and the options available to you before we proceed.

Insurer security

The insurers we use are regulated and are required to have adequate capital resources. However, we cannot guarantee the solvency of any insurer we place business with. An insolvent insurer may be unable to pay claims or may be unable to pay them in full and you may have to pay a further premium to pay for alternative insurance cover.

Termination

You or we may terminate authority to act in connection with your insurance arrangements at any time. Notice of termination must be given in writing and will be without prejudice to the completion of any transactions already commenced. Any business currently in progress will be completed unless we receive instructions to the contrary.

Any premiums or fees outstanding will become payable immediately. In circumstances where we feel we cannot continue providing services to you, we will give you a minimum of 7 days' notice.

Law and jurisdiction

These Terms of Business shall be governed by and construed in accordance with English Law and shall be subject to the exclusive jurisdiction of the courts of England and Wales.

Melbourn Parish Council Finance Report 31st October 2022

The figures above have been produced by the Parish Council's accounting system. The 'Actual' figures include due and unpaid transactions with invoice dates from 1st April to 31st October 2022. Where an item is funded by a reserve and does not form part of the precept budget, it is shown in the Reserve Movements column.

Variations from Budget

Income:

Interest on Deposit Accounts – this is expected to significantly exceed budget due to the increase in interest rates that has occurred during the year.

Miscellaneous Income – this is not budgeted. £5,000 has been received for an easement across the Old Recreation Ground. This money has been taken to a reserve and ring-fenced for future maintenance expenditure for the Old Rec.

Grants Received – a grant of £700 has been received from SCDC towards the Jubilee bench.

Expenditure:

Insurances – the insurance policy has been reviewed and items added or cover increased. The revised premium is above the budget.

Maintenance Expenditure – there has been unplanned expenditure on removing asbestos from the allotments and repairing the goal mouths on the football pitches. The Maintenance Committee believe that it should be possible to offset this with underspends elsewhere within the maintenance budget headings.

If the Customer rejects the Order Confirmation within the FIVE (5) BUSINESS DAYS, no Contract is deemed to exist.
- e. No employee of the Company or its agents has authority to make any warranty, statement or promise concerning the Goods except in writing signed by a Company Director.
- f. The Customers order shall be subject to acceptance by the Company
- g. Any such taxes, duties or charges shall be paid by the Customer.
- b. Unless otherwise specified, packing cases and pallets will be charged extra but will be credited in full on return carriage paid and in good condition within one month of receipt by the Customer. Export packing cases are not returnable.
- c. Quoted prices are held for a period of 60 (Sixty) days and ordered prices for Goods or Services are held for 60 (Sixty) Days, after these periods both are subject to any increase in the cost of labour, materials and installation.

4. PROPERTY OF GOODS

- a. Property of Goods delivered by the Company shall not pass to the Customer until payment is made in full. In case of default in payment, the Company shall be granted access rights in order to repossess the Goods. At all times before payment in full:

 - the Customer shall take appropriate steps to notify third parties of the Company's interest in the Goods; and
 - in the event of threatened seizure of the Goods or by the appointment of a receiver or liquidator, or any other event entitling the Company to terminate this Contract under paragraph 10, the Customer shall immediately notify the Company and the Company shall be entitled to enter the Customer's premises and repossess the Goods.
- b. If the Customer delivers Goods to a third party before payment has been made in full to the Company, the customer shall hold all sums received for such Goods as trustee for the company and shall remit them to the Company on receipt.
- c. Risk for the Goods shall pass on delivery.

5. DELIVERY

- d. For Services to be carried out over a period exceeding two weeks, the Company reserves the right to invoice the Customer on a weekly basis. An initial invoice will be issued upon receipt of the Goods at the Customer's site, followed at weekly intervals by invoices for completed stages of the Services. In the event that any weekly invoice is not paid in accordance with clause 6(a), the Company shall be entitled at its own discretion to suspend the Services until payment of all outstanding sums is received or to terminate the Contract in accordance with clause 10.

Hi Claire

The price would be the same either way, we usually charge an additional £95 plus VAT per hour for any jetting required, but as we have already been to site, we decided to do these works at a fixed cost, even though the drains were jetted it is likely they will still need a jet in places in order to get decent video footage.

As a good will gesture, I will deduct £50 plus Vat off our quote for camering, so the new price would be £400 plus VAT

Any queries, please do not hesitate in contacting me,

Thank you

Kind Regards

Sean Hogan

Hi Carrie

Thanks for your email.

Can I just check, if the drains are still flowing when your team come out to carry out the CCTV inspection, will it be necessary to jet them through? If not, will this change the cost of the inspection?

I just need to be clear what expenditure I'm getting authorisation for.

Many thanks

Claire

Cambridgeshire and Peterborough
Association of Local Councils

The LGA has notified NALC that they have come to an agreement on the new pay scale for 2022-23 to be implemented from 1 April 2022. Employers are encouraged to implement this pay award as swiftly as possible.

Pay Agreement has been reached on rates of pay applicable from 1 April 2022.

Employers are encouraged to implement this pay award as swiftly as possible.

Backpay for employees who have left employment since 1 April 2022

If requested by an ex-employee to do so, we recommend that employers should pay any monies due to that employee from 1 April 2022 to the employee's last day of employment.

When salary arrears are paid to ex-employees who were in the Local Government Pension Scheme (LGPS), the employer must inform its local LGPS fund. Employers will need to amend the CARE and final pay figures (if the ex-employee has pre-April 2014 LGPS membership) accordingly. Further detail is provided in [section 15 of the HR guide](#) which is available on the [employer resources section](#) of www.lgpsregs.org.

Estimate No. H7423 revised

Re: Fencing and repairs near Worcester Way, Melbourn

We thank you for your recent enquiry and have the pleasure in submitting the following.

To: Take down old fencing and remove from site.

Fence to block off farmers field

To: Supply and erect 5.5mts of 1.8mt high steel Palisade security fencing to the installed in front of existing damaged chain link fencing.

The above consists of 2no. separate runs of 2.75mts

Posts – 102 x 44mm RSJ set in concrete foundations.

Rails – 2no. 50 x 50mm RSA bolted between each post using fish plates with M12 cup sq. bolts and permacone nuts.

Pales – ‘W’ profile with round and notched tops bolted to rails using M8 saddle bolts with permacone nuts.

All finished galvanised.

For the sum of £925.00 Exclusive of VAT.

All fencing will be fitted to ground level (unless stated above). As a result, your fencing may step down with the slope of the land as to eliminate gaps beneath. Huntree fencing will operate this detail as standard unless notified prior. If it is your intention to keep the top of the fence level, additional charges may apply. Please contact your estimator for more information.

Most types of our fencing can be seen on our website: www.huntreefencing.co.uk

All prices are net and exclude VAT (current rate 20%).

We do not accept any responsibility for damage to plants or shrubs, during the course of erecting fences. Please liaise with neighbouring properties to ensure plants and shrubs are removed prior to us carrying out work.

Top spoils from hole excavation to be spread on site area, rubble/concrete to be removed.

NOTE: Unfortunately, in view of the current volatility in Steel prices the above rates cannot be guaranteed. The validity of estimates must be checked prior to placing an order.

Any change in specification must be agreed with the estimator stated below and submitted to this office in writing. All materials supplied/erected remain the property of Huntree Fencing Ltd until paid for in full.

Payment terms: 30 days from receipt of invoice.

Payment can be made by cash, cheque, credit/debit card or bank transfer.

We hope the above is of interest and meets with your approval.

Should you require any further information, then please do not hesitate to contact us.

See quote below.

Claire, I'd be interested to hear what the issues are with the clock, and would be happy to help diagnose and fix them.

In terms of fitting the unit, it's very simple. On the electricity feed to the clock, you simply fit this unit inline in the supply cable. It has power terminals in and power terminals out, there's nothing more complex than screwing the unit to the wall, cutting the wire and putting it in the terminal blocks (the cable may need to be extended or replaced from the nearest switch/fuse, but that's equally easy if the unit is fitted close to the supply). If it weren't for the fact that presumably we need it signed off by a qualified electrician, I could do it!

Ian

Hi Ian,

We can supply only to you an Auto restart unit. The Automatic Restart Unit, which may be installed in any convenient position in the building, has been designed to avoid having to reset the hands of a self-starting synchronous electric clock after a power failure. Following a mains failure lasting more than 12-seconds the unit cuts off the power to the clock for precisely 12-hours less 12-seconds. The clock is then automatically restarted without any need for adjustment of the hands. Alterations between Summer and Winter time also occur automatically. The price for supply only is **£523.00 including courier. Plus vat.**

I have attached the Installation sheet. If you choose to order this item, could you give me the address and postcode to where it is being installed ie the pavilion and also delivery and invoice address. We will despatch once we receive a PO.

Best regards

Martin.

Subject: Electrical Installation Work - Parish Council Agenda Item

Dear Claire,

Please add this item to the agenda for the Monday Parish Council meeting.

To consider the approval of electrical installation work for new Turbo-Convection Oven and Coffee Machine at a cost of £120 + VAT

The installation of the new Turbo Convection Oven and Coffee Machine required minor additional electrical work. I request the approval of residual funds remaining from the purchase of this equipment to cover the cost.

The recently purchased Turbo Convection Oven had an approved budget of £1,500, with purchase approved under **PC096/22(c)** at a total cost of £1,330.00 + VAT. The budget was therefore underspent against the precept by the amount £170.

Cores Electrical have the maintenance contract for Hub kitchen equipment and so a second quote is not considered necessary

Many thanks,

John

Dear Claire

As requested by Jose Hales, were quoting to remove shrubs from the triangular bed at the rear of the hub.

We would cut down the shrubs, grind out the stumps & then dig out to allow us to put in a subbase, following this we would concrete the area leaving a strip against the building the same as the area next to it to allow drainage between the building

We would cover over from the weather & fence off to allow to go off

Site would be left tidy

We could do this fairly quickly

Total for works £400.00 x Vat

Subject: Revised Melbourn 20MPH Zone including Traffic Calming (Speed Cushions and raised table)

Attachments: [MELBOURN20MPH-GA-001-RevC.pdf](#)
[Melbourn 20MPH_DD_Traffic Calming 1.pdf](#)

Dear Applicants.

As you know we have recently carried out a Formal Consultation on a proposed 20MPH Zone in Melbourn.

The comments we received were mixed but most seem to be making the following points

- that the Zone didn't extend far enough and that they would like the Zone to be larger than advertised
- that a 40MPH speed limit on the approaches to the village would also be preferable.
- Speed cushions between the existing humps on New Road are un-necessary
- HGV using Beechwood Avenue

In light of the comments we have made some changes to the original design.

- We have extended the boundary points to include more properties. We have placed a Zone Entry/Exit point on Royston Road at the 3 way point with Back Lane and High Street. We are also proposing a 400m buffer zone of 40MPH on the approach to this point.
- We have moved the entry point on Cambridge Road so that Portway and Armingford Crescent are inside the zone. We are also proposing a 400m buffer zone of 40MPH on the approach to this point.
- On Station Road we have moved the entry/exit point to the bridge on the border with Meldreth.
- We will be installing signs to warn HGV drivers that Beechwood Avenue is unsuitable for their use.

After discussions with our Planning and Development Teams I can confirm that there is to be a raised table on New Road between Victoria Way and Rosemary place and that the existing speed humps at 12 and 24 New Road are to be replaced by speed cushions.

This means that the 5 cushions in total proposed by this scheme is now reduced to a single cushion at the give way point at Victoria Way

I have attached some revised drawings showing the new boundary points with 40MPH buffers on the approaches and the speed cushion location.

Could you please engage with all interested parties and share these drawings with them. The Zone is going to need to be advertised in its entirety again in light of these changes and we would like to avoid having to advertise for a third time.

The raised table work is due to begin in the New Year and we would ideally like to tie our work in with this.

Could we please have your feedback by the end of November?

If you have any questions or need clarification on anything please do not hesitate to contact me.

Dear Sir / Madam

Response to Melbourn Greenway Consultation

Thank you for the opportunity to respond to this public consultation. We have studied the plans and attended both the online Zoom meeting and the Consultation Display at the Hub on Monday, 17 October.

Please note our response to the proposed Greenway project below.

The plans generally provide for a good shared use path from Melbourn to the site of the proposed bridge over the A505 at Royston.

Links with Meldreth

We note that there is no provision for a link to Meldreth via the Bury Lane Farm Shop complex and the bridleway to the Fieldgate corner on Station Rd. This would require a crossing place just east of the junction of Royston Road and the A10. We believe there is room on the carriageway for a two-stage crossing and we would request that provision for this be included in the plans. We would note that the path beside the A10 needs improving to that of a shared use path and the bridleway need some improvement to provide a better surface for cyclists and other users, including horses.

Safety concerns

We believe that rights of way need to be addressed for the safety of all users. We would suggest that at entrances and minor roads the path should be placed on a raised table with clear marking on the ramps. Sight lines are a major consideration and needed to be considered and any actions need to be defined.

South of the village

It is our view that the crossing arrangements near Back Lane need to be reviewed. There is a suggestion that there will be a Zebra crossing. It is our view that road narrowing would have the effect of slowing traffic entering the village. There is, however, a need to allow cyclists heading north to cross Royston Road safely just before Back Lane.

Centre of the village

We are mindful that proposed changes to the carriageway at The Cross may have a negative impact on traffic flow. We would like there to be further consideration of how this may be mitigated.

North of the village

We note that no changes have been proposed to the existing shared use path north of the Science Park. We believe that improvements are needed at access points to improve sight lines and to send a clear message to vehicles that there is a cycle crossing.

We believe that the road crossing just south of Dobbies needs to be clearly defined with more signposting and road markings.

The A10 crossing at Dunsbridge provides a two-stage crossing but does not have sufficient space for cycles in the central reservation. This is much busier than the proposed signalised crossing at Shepreth Lakes. We believe that signalling this crossing is necessary and would improve safety.

On Cambridge Road the emerging development plans at the Melbourn Science Park will materially affect traffic flows in this location. The Greenway scheme and any speed change proposals should work in harmony to mitigate any impact. A 20mph speed limit would be appropriate in this situation. The Council is encouraged to work directly with the Science Park to ensure the Greenway scheme and attendant speed limits changes are developed alongside this significant business development project.

Speed limit changes on the Cambridge Road between the A10 and village boundary should be strongly considered. Cambridge Road intersects with the A10 which has a speed limit of 50mph. Traffic can then turn off the A10 towards Melbourn and increase speed up to 60mph until it reaches the 30mph sign at the village boundary. This seems illogical and a 40mph buffer zone would seem to be an effective solution. The same can be said of the entry point into Melbourn from the Royston direction.

Yours faithfully

Cllr Graham Clark

STANDING ORDERS

PURPOSE: Standing Orders are the written rules of a Parish Council. The SOs confirm the statutory requirements (items in bold).

SCOPE: Standing Orders are used to confirm the council's internal, organisational, administrative and procurement procedures and procedural matters for meetings.

Standing Orders do not include financial regulations. These regulations have been adopted separately by Melbourn Parish Council.

Standing Orders are not the same as policies. Policies are adopted separately.

The Clerk is the Proper Officer (see section 15) of the Council. The Assistant Clerk may be nominated to perform the role in the absence of the Clerk.

Section 19 refers to the Clerk rather than the Proper Officer because the Assistant Clerk cannot perform the function as defined.

INTRODUCTION

This is version two of Model Standing Orders 2018 (England) updated on April 2022. Update to Model Standing Order 18 only.

How to use model standing orders

Standing orders are the written rules of a local council. Standing orders are essential to regulate the proceedings of a meeting. A council may also use standing orders to confirm or refer to various internal organisational and administrative arrangements. The standing orders of a council are not the same as the policies of a council but standing orders may refer to them.

Local councils operate within a wide statutory framework. NALC model standing orders incorporate and reference many statutory requirements to which councils are subject. It is not possible for the model standing orders to contain or reference all the statutory or legal requirements which apply to local councils. For example, it is not practical for model standing orders to document all obligations under data protection legislation. The statutory requirements to which a council is subject apply whether or not they are incorporated in a council's standing orders.

The model standing orders do not include model financial regulations. Financial regulations are standing orders to regulate and control the financial affairs and accounting procedures of a local council. The financial regulations, as opposed to the standing orders of a council, include most of the requirements relevant to the council's Responsible Financial Officer. Model financial regulations are available to councils in membership of NALC.

Drafting notes

Model standing orders that are in bold type contain legal and statutory requirements. It is recommended that councils adopt them without changing them or their meaning. Model standing orders not in bold are designed to help councils operate effectively but they do not contain statutory requirements so they may be adopted as drafted or amended to suit a council's needs. It is NALC's view that all model standing orders will generally be suitable for councils.

For convenience, the word "councillor" is used in model standing orders and, unless the context suggests otherwise, includes a non-councillor with or without voting rights.

A model standing order that includes brackets like this '()' requires information to be inserted by a council. A model standing order that includes brackets like this '[]' and the term 'OR' provides alternative options for a council to choose from when determining standing orders.

This policy sets out the Council's commitment to data protection, and your rights and obligations in relation to personal data in line with the General Data Protection Regulation (GDPR) and the Data Protection Act 2018 (DPA).

This policy applies to the personal data of current and former job applicants, employees, workers, contractors, and former employees, referred to as HR-related personal data. Processing

Personal data

The Council will process your personal data (that is not classed as special categories of personal data) for one or more of the following reasons:

- it is necessary for the performance of a contract, e.g., your contract of employment (or services); and/or
- it is necessary to comply with any legal obligation; and/or
- it is necessary for the Council's legitimate interests (or for the legitimate interests of a third party), unless there is a good reason to protect your personal data which overrides those legitimate interests; and/or
- it is necessary to protect the vital interests of a data subject or another person; and/or
- it is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

If the Council processes your personal data (excluding special categories of personal data) in line with one of the above bases, it does not require your consent. Otherwise, the Council is required to gain your consent to process your personal data. If the Council asks for your consent to process personal data, then we will explain the reason for the request. You do not need to consent or can withdraw consent later.

Melbourn Parish Council: 30 High Street Melbourn SG8 6DZ

The Council will not use your personal data for an unrelated purpose without telling you about it and the legal basis that we intend to rely on for processing it.

Personal data gathered during the employment is held in your personnel file in hard copy and electronic format on HR and IT systems and servers. The periods for which the Council holds your HR-related personal data are contained in our privacy notices to individuals.

Sometimes the Council will share your personal data with contractors and agents to carry out our obligations under a contract with the individual or for our legitimate interests. We require those individuals or companies to keep your personal data confidential and secure and to protect it in accordance with Data Protection law and our policies. They are only permitted to process that data for the lawful purpose for which it has been shared and in accordance with our instructions.

The Council will update HR-related personal data promptly if you advise that your information has changed or is inaccurate. You may be required to provide documentary evidence in some circumstances.

The Council keeps a record of our processing activities in respect of HR-related personal data in accordance with the requirements of the General Data Protection Regulation (GDPR).

Special categories of data

The Council will only process special categories of your personal data (see above) on the following basis in accordance with legislation:

- where it is necessary for carrying out rights and obligations under employment law or a collective agreement;
- where it is necessary to protect your vital interests or those of another person where you are physically or legally incapable of giving consent;
- where you have made the data public;
- where it is necessary for the establishment, exercise or defence of legal claims;
- where it is necessary for the purposes of occupational medicine or for the assessment of your working capacity;
- where it is carried out by a not-for-profit body with a political, philosophical, religious or trade union aim provided the processing relates to only members or former members provided there is no disclosure to a third party without consent;
- where it is necessary for reasons for substantial public interest on the basis of law which is proportionate to the aim pursued and which contains appropriate safeguards;
- where it is necessary for reasons of public interest in the area of public health; and
- where it is necessary for archiving purposes in the public interest or scientific and historical research purposes.

If the Council processes special categories of your personal data in line with one of the above bases, it does not require your consent. In other cases, the Council is required to gain your consent to process your special categories of personal data. If the Council asks for your consent to process a special category of personal data, then we will explain the reason for the request. You do not have to consent or can withdraw consent later.

Individual rights

As a data subject, you have a number of rights in relation to your personal data.

Subject access requests

You have the right to make a subject access request. If you make a subject access request, the Council will tell you:

- whether or not your data is processed and if so why, the categories of personal data concerned and the source of the data if it is not collected from yourself;
- to whom your data is or may be disclosed, including to recipients located outside the European Economic Area (EEA) and the safeguards that apply to such transfers;
- for how long your personal data is stored (or how that period is decided);
- your rights to rectification or erasure of data, or to restrict or object to processing;
- your right to complain to the Information Commissioner if you think the Council has failed to comply with your data protection rights; and
- whether or not the Council carries out automated decision-making and the logic involved in any such decision-making.

The Council will also provide you with a copy of your personal data undergoing processing. This will normally be in electronic form if you have made a request electronically, unless you agree otherwise.

If you want additional copies, the Council may charge a fee, which will be based on the administrative cost to the Council of providing the additional copies.

To make a subject access request, you should send the request to the Clerk or Chairman of the Council. In some cases, the Council may need to ask for proof of identification before the request can be processed. The Council will inform you if we need to verify your identity and the documents we require.

The Council will normally respond to a request within a period of one month from the date it is received. Where the Council processes large amounts of your data, this may not be possible within one month. The Council will write to you within one month of receiving the original request to tell you if this is the case.

If a subject access request is manifestly unfounded or excessive, the Council is not obliged to comply with it. Alternatively, the Council can agree to respond but will charge a fee, which will be based on the administrative cost of responding to the request. A subject access request is

likely to be manifestly unfounded or excessive where it repeats a request to which the Council has already responded. If you submit a request that is unfounded or excessive, the Council will notify you that this is the case and whether or not we will respond to it.

Other rights

You have a number of other rights in relation to your personal data. You can require the Council to:

- rectify inaccurate data;
- stop processing or erase data that is no longer necessary for the purposes of processing;
- stop processing or erase data if your interests override the Council's legitimate grounds for processing data (where the Council relies on our legitimate interests as a reason for processing data);
- stop processing or erase data if processing is unlawful; and
- stop processing data for a period if data is inaccurate or if there is a dispute about whether or not your interests override the Council's legitimate grounds for processing data.
- complain to the Information Commissioner. You can do this by contacting the Information Commissioner's Office directly. Full contact details including a helpline number can be found on the Information Commissioner's Office website (www.ico.org.uk).

To ask the Council to take any of these steps, you should send the request to the Clerk or Chairman of the Council.

Data security

The Council takes the security of HR-related personal data seriously. The Council has internal policies and controls in place to protect personal data against loss, accidental destruction, misuse or disclosure, and to ensure that data is not accessed, except by employees in the proper performance of their duties.

Where the Council engages third parties to process personal data on our behalf, such parties do so on the basis of written instructions, are under a duty of confidentiality and are obliged to implement appropriate technical and organisational measures to ensure the security of data.

Data breaches

The Council have robust measures in place to minimise and prevent data breaches from taking place. Should a breach of personal data occur the Council must take notes and keep evidence of that breach.

If you are aware of a data breach you must contact the Clerk or Chairman of the Council immediately and keep any evidence, you have in relation to the breach.

Melbourn Parish Council: 30 High Street Melbourn SG8 6DZ

If the Council discovers that there has been a breach of HR-related personal data that poses a risk to the rights and freedoms of yourself, we will report it to the Information Commissioner within 72 hours of discovery. The Council will record all data breaches regardless of their effect.

If the breach is likely to result in a high risk to the rights and freedoms of individuals, we will tell you that there has been a breach and provide you with information about its likely consequences and the mitigation measures we have taken.

International data transfers

The Council will not transfer HR-related personal data to countries outside the EEA.

Individual responsibilities

You are responsible for helping the Council keep your personal data up to date. You should let the Council know if data provided to the Council changes, for example if you move to a new house or change your bank details.

Everyone who works for, or on behalf of, the Council has some responsibility for ensuring data is collected, stored and handled appropriately, in line with the Council's policies.

You may have access to the personal data of other individuals and of members of the public in the course of your work with the Council. Where this is the case, the Council relies on you to help meet our data protection obligations to staff and members of the public. Individuals who have access to personal data are required:

- to access only data that you have authority to access and only for authorised purposes;
- not to disclose data except to individuals (whether inside or outside the Council) who have appropriate authorisation;
- to keep data secure (for example by complying with rules on access to premises, computer access, including password protection, locking computer screens when away from desk, and secure file storage and destruction including locking drawers and cabinets, not leaving documents on desk whilst unattended);
- not to remove personal data, or devices containing or that can be used to access personal data, from the Council's premises without prior authorisation and without adopting appropriate security measures (such as encryption or password protection) to secure the data and the device; and
- not to store personal data on local drives or on personal devices that are used for work purposes.
- to never transfer personal data outside the European Economic Area except in compliance with the law and with express authorisation from the Clerk or Chair of the Council

- to ask for help from the Council's data protection lead if unsure about data protection or if you notice a potential breach or any areas of data protection or security that can be improved upon.

Failing to observe these requirements may amount to a disciplinary offence, which will be dealt with under the Council's disciplinary procedure. Significant or deliberate breaches of this policy, such as accessing personal data without authorisation or a legitimate reason to do so or concealing or destroying personal data as part of a subject access request, may constitute gross misconduct and could lead to dismissal without notice.

This is a non-contractual policy and procedure which will be reviewed from time to time.

(Chair to Melbourn Parish Council)

Date of Parish Council Meeting: 28 November 2022

Document Review Policy: 2 years from last approval

POLICY: Community Engagement

1. INTRODUCTION

Melbourn Parish Council's Community Engagement Policy outlines the means of engagement with its residents and partners (for example, other Parish Councils) and how these might develop and improve over time.

It recognises that the services it provides must reflect the needs of its parishioners and the locality. Residents, local businesses and other organisations in the Parish must be involved in decisions affecting them and their neighbourhood, and in shaping the future of their Parish.

2. ENGAGEMENT WITH RESIDENTS AND PARTNERS

The Parish Council engages with its residents and partners by:

- informing, consulting and involving;
- being inclusive and engaging with all of its residents and partners; and
- ensuring views are listened to and used to develop, enhance and improve services, the environment and the quality of life of those who live and work in Melbourn.

3. OBJECTIVES

- To improve, plan and shape the future of the Parish according to local needs and priorities
- To improve the quality and delivery of services
- To ensure all members of the community feel they have adequate opportunity to express their views and feel their interests have been properly considered.
- To use engagement to ensure decisions are fit for purpose and meet the needs of the Parish
- To collaborate with individuals, groups and organisations where appropriate to benefit the Parish
- To encourage community in local government
- To inform people about the Parish Council's work and the services it provides
- To be a stronger, more active and cohesive community and encourage a sense of ownership of assets, infrastructure, and new projects

4. HOW THIS WILL BE ACHIEVED

"The right information at the right time by the right method"

Communication

Delivering information

Informing members of the parish will be achieved in a variety of ways to ensure all sections of the community are reached.

Melbourn Village Magazine, which is delivered to every house and business in Melbourn. It updates local people on Parish events and invites involvement in its activities. Both the Clerk and Chair of the Council contribute regular articles.

The Parish website has a wealth of local information and is regularly updated. The home page consists of latest news and information to keep the site interesting. Meeting information and supporting documents are available prior to Council meetings. Audio recordings of recent Council meetings are also available.

The Melbourn Parish Council Facebook Page is used to share information about services, consultations, and events in the village.

Press releases to the local press may be issued, highlighting items which benefit from being communicated immediately.

Meetings of the Council and its Committees are open to the public. Agendas and minutes are published on the website and on the Parish Notice Board. Supporting documents are also available on the website.

Noticeboards are regularly updated with both Parish Council and local community news.

Inviting Participation

The articles in Melbourn Magazine may invite participation.

Parish Council and committee meetings include an opportunity for members of the Parish to engage with councillors.

The opening hours and location of the Parish Office are published on the website and notice boards. This gives parishioners a point of contact to come and voice concerns or ask questions.

When there is a casual vacancy, the Clerk will invite “expressions of interest” and will publicise this on the notice boards and website. Melbourn Parish Council encourages participation of new members to join the council when there is a vacancy.

Any standing committee or working party of the council is empowered to co-opt interested members of the community, when a non-councillor vacancy arises. Although non-councillor members do not have voting rights, their participation in the meetings helps the Committee/Working Party to make informed decisions for the benefit of the Parish.

The Council gives out Community Awards at the Annual Parish Meeting to members of the community who have been recognised for work which benefits the Parish.

Participation can be improved by:

- Promoting the Annual Parish Meeting through notices in the Hub, the Co-op and Post Office. Consideration should be given to offering an inducement to attend eg refreshments and having a general Q&A session about anything parishioners want to raise.
- Inviting the public to submit questions/comments by e-mail if they are unable to attend the Council meeting.

Promoting the Parish Council

By informing the community about the Parish Council's work and the services it provides will help parishioners understand how the Parish Council acts to benefit the village.

The Welcome Pack, which is given to all new residents, includes a section on what the Parish Council does and how to get involved.

Understanding of the Parish Council's work can be improved by:

- Extending the range of information available on the website and positively promoting it as a source of information to answer questions.
- Pulling together information about the Council's work into an easy to read guide.

Consultation

Consulting Parishioners on key issues is vital. It ensures those most affected are able to put forward an opinion and are given an opportunity to make a difference. For 'big' issues, the Council has used direct means of consultation to ensure all members of the community are informed about the issue and invited to contribute their opinion.

Consultations include all members of the Parish for example, the hard to reach groups such as youths, the elderly, the housebound, the disabled, ethnic minorities etc. However, to date the same communication methods have been used for all and in practice, these special groups may require different engagement channels.

Surveys that the Parish Council or other local authorities undertake to find out parishioners' views will be published on the Facebook page and website.

Consultation events will be publicised using all channels of communication available. Consultations will run for as long as possible to ensure members have adequate time to respond.

Melbourn Parish Council will feedback to the community on how their input affected the decision making.

Consultation can be improved by:

- Developing strong links with schools and other local groups to help with consultations.

Support

Supporting local organisations and engaging with them will assist them in meeting their own aims and objectives. The Parish Council's grant policy is an excellent means of

understanding the needs and aspirations of local groups. Supporting local projects and participating in local events will raise the awareness of the Council and its aims and objectives.

Publicising the PC's role can be improved by:

- Ensuring that the groups which receive funding acknowledge the PC's role.

Working with the community

Working with residents and partners in finding solutions to local problems will ensure that outcomes will be accepted and fit for purpose. Working together to carry out agreed action plans, will engage the community in working with the Council to enhance the environment and the quality of their lives.

The consultations carried out by the Melbourn Futures and Play Parks Working Parties have laid the groundwork for consulting the community in innovative ways as well as by online questionnaires.

Public participation in Working Parties has begun, and will be continued.

5. MEASURING SUCCESS

The success of individual consultations will be measured by the appropriate Committee or Working Party to highlight any areas for improvements.

The PC should ask for feedback on its communication strategies at its Annual Parish Meeting

6. STRATEGY REVIEW

The Community Engagement Strategy will be reviewed every 2 years.

**POLICY and PROCEDURE: APPOINTMENT and MANAGEMENT
of CONTRACTORS**

PURPOSE: To ensure contractors are selected such that the work they carry out is performed safely, effectively and offers good value to the public purse

SCOPE: Contractors to Melbourn Parish Council

Definition: A contractor is anyone Melbourn Parish Council asks to do work for them that is not an employee. This definition includes service providers.

Melbourn Parish Council and the contractor both have responsibilities under the Health and Safety Act 1974. The Council and the contractor must take the right precautions to reduce the risks of workplace dangers to employees and the public. This is a joint responsibility. **See notes for guidance under Appendix A.**

POLICY:**1. Principles**

- 1.1 We, Melbourn Parish Council, will appoint contractors based on a transparent process that allows a clear comparison to be made between the options available.
- 1.2 Contract price will not be the overriding factor in choosing a contractor. Competence, reliability, safety record, clarity of method, quality of supervision, management, staff training and best value will also be taken into consideration.
- 1.3 Jobs to be carried out by contract will normally require the Clerk to supply a job specification, detailing the work to be carried out. This will include both the tasks required but also any predefined aspects of delivery, such as safety considerations or methods of work.
- 1.4 In certain special circumstances an upfront specification will be substituted by a general outline of requirements against which contract proposals will be invited. Such circumstances arise where the job to be undertaken will significantly benefit from the knowledge and expertise of specialist suppliers. An example would be a quotation for play park equipment.
- 1.5 Three contractors will normally be required to quote for each contract job. Depending on the contract value and circumstances, for example where very specialist services are required, it may not be possible or necessary to obtain three quotations. If this situation arises the Clerk will bring the issue to Full Council for resolution and, where justified, fewer quotations can be considered and accepted following council consent.
- 1.6 Quotations from contractors must include a safety method statement, a work method statement and job supervision plan and details of professional liability insurance. This will require the contractor to complete a Contractor Competency Form.
- 1.7 A Risk Assessment must be carried out and supplied. ~~for each job.~~
- 1.8 The Clerk will monitor contract work and report to the Council at least annually as part of the Governance process. Contracts will comply with all Financial Regulations that apply to the Melbourn Parish Council

MELBOURN PARISH COUNCIL

- 1.9 Policy Principles 1.3, 1.4, 1.5 1.6. 1.7 and 1.8 will always be applied to major contracts, particularly those involving significant financial outlay or those covering lengthy periods of time, for example grounds maintenance contracts. In all such cases the following procedure (2) below should be followed in outline.
- 1.10 Further to consultation with the Chair of the Maintenance Committee and/or Full Council the Clerk may omit procedure (2) in the case of short term, minor or repetitive contract works. An important factor in assessment of less significant contracts is past history and knowledge of the contractors quoting for work, for example contractors quoting for tree surgery works where companies have been previously employed on multiple occasions.

PROCEDURE:

2. STEPS TO BE TAKEN

- 2.1 **Identify the job and work requirements** - Before embarking on a new contract the Clerk will verify that approved funds are available to meet the likely costs. Assuming funds are available the Melbourn Parish Council, through the Clerk will -
- **Create a Job Specification** that clearly identifies all aspects of the work wanted from the contractor. In addition to the work content, the Job Specification must include (a) the health and safety implications of the job, (b) any appropriate terms and conditions, (c) the level of risk, depending on the nature and complexity of the work. The Clerk should carry out an outline risk assessment at this stage with respect to any resulting risks to council employees and the public.
 - **Seek out potential contract partners** - The Council, through the Clerk, will provide potential contractors with Job Specification information package and make sure that they know and understand the service expected of them.
 - **Determine the selection criteria** - The Clerk will identify the evaluation criteria needed for a successful tender.
- 2.2 **Select a suitable contractor** – Melbourn Parish Council, through the Clerk, will satisfy themselves that the contractor they choose can do the job safely, without risks to health and at a cost acceptable to the public purse. The Clerk will enquire and evaluate on the Council's behalf the competency of each contractor and their combination of skills and knowledge. Where a contract value is likely to exceed £3000, **three** contractors will be required to quote for each job. Where the contract value is likely to fall below this figure the Clerk should strive to obtain three quotations. In all circumstances where three quotations prove impossible, the Clerk will always bring the issue to Full Council for resolution and/or approval.

The degree of competence required will depend on the work and complexity of the job. All potential contractors will complete the Contractor Quotation Competency Form that is part of this document. The Clerk will use the evaluation criteria from 2.1 above to compare contractors based on the combined evidence of quoted price, all information

Note: It is very important that questions answered or clarifications offered with respect individual contractors during the tendering stage are formally recorded. Where such matters result in a material change they must be shared with all competing contractors.

supplied including the Competency Form, awarding contracts accordingly.

Some other factors that should be considered: -

- *For contractors offered repeat work of a similar kind, or where the contract lasts over a protracted period, the need for a Contractor Competency Form may be waived with the Clerk's agreement*
- *For large contracts the Parish Council needs to be aware of the Construction Design and Management Regulations (CDM)*
- *As appropriate, the Job Specification should require the contractors guarantee, warrantee and test certificates (for example with the electrical installations)*

2.3 Review and if needed re-assess the risks of the work - Both the Council and the Contractor will think about the planned work:

- What can harm people?
- Who might be harmed and how?
- How will the risks be controlled?

A risk assessment must be done. Both the Council and the contractor will be party to this. The contractor must assess the risks for the contracted work. The Clerk (on behalf of the Council) and the contractor will together consider any risks from each other's work that could affect the health and safety of the workforce or the public. The Clerk (on behalf of the Council) and the contractor will agree the risk assessment for the contracted work and the preventative and proactive steps that will apply when the work is in progress. If subcontractors are involved they will be part of the discussion and agreement. All measures needed to control the risk will be agreed between the Clerk and contractor before any work starts.

Note: For contractors with repeat work of a similar kind, or where the contract lasts over a protracted period, the need for a separate Risk Assessment for each job may be waived with the Clerk's agreement

2.4 Provide information, instruction and training - The Council, contractor and subcontractors will provide their employees with information, instruction and training on matters that may affect their health and safety. The Clerk, contractors and subcontractors will agree what information will be passed between them and appropriate ways to communicate with each other throughout the process. The Clerk (on behalf of the Council) will make sure that contractors, subcontractors and their employees have information on:

- Health and safety risks they may face
- Measures in place to deal with those risks
- The Council's emergency procedures if relevant.

MELBOURN PARISH COUNCIL

2.5 **Cooperate and coordinate with the contractor** - The Clerk (on behalf of the Council) will work together with the contractors and subcontractors to coordinate all activities, to make sure that the work can be done safely and without risks to health. Depending on the size of contract the Clerk will regularly meet with the contractor throughout the length of the contract. The level of cooperation and coordination required will be agreed before work starts and will depend upon:

- The job to be done
- The number of contractors and/or subcontractors involved
- The risks involved.

2.6 **Consult the workforce** - Melbourn Parish Council will routinely consult its employees on contracted task content and related health and safety matters to help the Council to make better decisions on the actual risks and the measures to control them. Employees will be consulted on:

- How the contractors work will affect the Council employees' health and safety;
- Information and training
- Making sure they know how to raise any concerns they may have about the contractors and their work
- Ensuring contracted work is done without conflict with the job roles and job descriptions of council employees

2.7 **Manage and supervise the work** - The Clerk (on behalf of the Council) will make regular checks on contractors, the work being completed, whether the contractors are working in a safe way and complying with the control measures put in place. This will be supported through the use of a **Checklist** to ensure that all key control steps have been completed properly. The frequency and degree of checks will reflect the length of experience with a particular contractor and the nature of the work, for example if such work is highly repetitive.

The Clerk will have agreed with the contractor though risk assessment and declared methods of working how the work will be done and the precautions that will be taken.

In the case of mishaps, accidents, ill health etc. the Clerk, on behalf of the Council, will investigate with the contractor what went wrong, reporting to the council when appropriate.

2.8 **Review** – On an annual basis the Clerk will review the contractor management process and consider ways to improve future performance. An annual report will be given to the Full Council as part of governance monitoring. It is recommended that the Clerk, supported if necessary by other council employees or councilors, periodically observe the performance of contractors in the fulfillment of contracts awarded. Elements that can be monitored (not exclusively) are:

- Adherence to Method Statement, number of operators and time spent
- Adherence to safety commitments and Risk Assessment recommendations, use of safety equipment,
- Provision of supervision, where appropriate
- Safe and effective use of equipment and vehicles

The Clerk should make arrangements to formally record the observations made during the monitoring of contractor work.

APPENDIX A**Notes to assist council employees in the understanding of their contractor responsibilities**

- ❖ The Health and Safety at Work etc. Act 1974 requires employers and others in control of buildings or public places to ensure the safety of employees and others who work or visit there. The Management of Health and Safety at Work Regulations 1999 also require those in control of land and buildings to co-operate with contractors or self-employed persons to ensure that they are not exposed to unacceptable health and safety risks.
- ❖ Although the responsibility to work safely rests principally with the contractor, Melbourn Parish Council also have a duty to do all that is within its control to make sure that this happens.
- ❖ This means that Melbourn Parish Council have a duty to ensure that a contractor is competent to perform the task safely and without unacceptable risk to other employees, members of the public and any others on the site.
- ❖ Where accidents occur on site through the incompetence or negligence of a contractor, Melbourn Parish Council could also be held liable if steps had not taken to appraise the contractor or carry out management checks to ensure that agreed standards of operation were actually being carried out correctly.
- ❖ Contractors should only be allowed to carry out work on the agreed site if they have been vetted and approved by Melbourn Parish Council. Even if the same contractors have been used for the past 10 years you still need to regularly assess them in order to ensure you are adhering to your legal obligations.
- ❖ Use this Policy and Procedure document to assist in compliance with these standards and, at the same time, ensure that contractors deliver value for money.
