Dear Sir, Madam, or Councillor,

Streetlighting LED Replacement

Following the recent Highways and Transport committee held on the 3rd of October 2023, I am writing to notify you that the street lighting LED lantern replacement project is proceeding.

The project will see the roll out of newer, more efficient LED (light emitting diode) lights and is expected to cut the County Councils energy consumption used by street lighting by more than half and will replace 47,500 streetlights with LED lanterns and will take two years to complete. The work is expected to begin in 2024.

The lantern replacement works planned will cause minimal disruption to residents, there will be no impact on the roads or footpaths. We expect each to be replaced in approximately one hour.

We will be in touch again before the start of the works to share the proposed installation dates for each area. We will also be on our website and our street lighting service provider, Balfour Beatty Living Places, website to provide information on the streetlighting replacement project.

Should you have any questions or require any further details about this project, please do contact us at: Street.Lighting@cambridgeshire.gov.uk.

Regards

Alan Hitch
