Flag Status: Flagged

Dear Sir/Madam,

We have recently had our pavements "slurried" which is obviously a cheap alternative to a longer lasting and properly finished tarmac surface.

I enclose photographs of weeds already growing through this veneer. I'm assuming we will be stuck with this horrible mess for years as it's what we were treated to the last time it was slurried and as with the that time, I expect the surface will start disintegrating in the next few months.

I'm not in the habit of complaining but it's so blindingly obviously that this is a false economy and one we now have to live with.

Yours

[REDACTED]
