

PC064 24b) Overnight parking – email correspondence

From: Resident

Hello Melbourn Parish Council,

I am emailing you about permission to park at the village car park overnight (where the kebab van is located).

My girlfriend and I live at flat 63a High Street. This flat does not have parking, so we park on the high street road overnight. Is it possible for us to get an exemption to use the village car park overnight?

Thank you for the email.

I believe that under the lease agreement there are restrictive covenants that would not allow overnight parking.

The car park is to be used for permitted use only and under the agreement permitted use is determined as a short stay car park with no overnight parking.

I will, of course, take your request to Full Council for clarification and consideration.

The next Full Council meeting will be held on 22nd July and I will add this as an agenda item. Hope to respond to you soon after the meeting.

Hi Abi,

Thank you so much for getting back to me so quickly and to adding it to the agenda. The reason we are requesting parking overnight is because I believe it is an inconvenience for other members of the town to constantly have to avoid our cars that are parked on the side of the main high street (we have seen posts on Facebook of people complaining about our cars being parked on the side of the road). We would also feel more comfortable knowing the cars are parked in the parking lot overnight rather than on the side of the street.
