Saturday 19th October 2024

Estimate.

Good morning Abi.

Please see the estimate below following our meeting at the parish office.

- Install walkway to air con units within loft space - supply flooring boards and timber to span ceiling joists to allow access to fan unit. Joists shall be spanned with 4x2 timber to prevent disturbance to pipework and wiring beneath. Once 4x2 is in place, 18mm flooring sheets will be fitted, glued and screw in to place.

Total cost of the above works £296.00

That cost is inclusive of all labour, materials and waste disposal provided by MJF.

I estimate needing half a day to carry out the works and if you wish to go ahead, I can supply some dates for you to choose from for installation.

Kindest regards

Miles Farbridge
