

Kerry Allen, Senior Project Manager, Great Cambridge Partnership – Monday 3 February.

Kerry provided an update on the Melbourn Greenway project via Teams call.

- highlighted the need for low profiles speed cushions throughout the High Street to protect cyclists
- showed introduction of traffic calming chicane at Royston Road end of village
- Council highlighted the need for public consultation
- Council highlighted the incorrect layout of Melbourn Science Park entrance on plans

Update – 13 February 2025

Apologies for the radio silence, we have managed to come to a conclusion on the date for the online event. We would like to hold an online event on the 3rd March in the evening.

I will speak to the team today to ensure that you have a full briefing on the timescales so that it can be discussed at the parish council meeting.

The timetable has been set as:

- 3rd March online event
- 3rd March TRO issued for 21-day consultation – ending on 23rd March.

We will then stop for the local elections, reviewing the outcome of the TRO in May.

I will be providing an updated plan to you to review, I took away some actions, one of which is to review the access to the Melbourn science park.
