

MA169/25c) Placement of memorials in New Road

Issue: Cremated remains plots CL1 and CL3 were purchased for family members – remains now interred and memorials approved in accordance with the terms and conditions of New Road.

On installation of the memorials the stone mason did not fit them as instructed (to the rear of the base plate). The stone mason is now requesting written permission from Council to move the memorials in accordance with the plot owners wishes.

Office wished to grant permission as the request is within the terms set out for New Road Cemetery and see no reason for this not to be approved.

Previous correspondence with the owner of the plots confirmed that their wishes were in accordance with the terms set for the Cemetery.

No costs will fall to the Council or owner of the plot for the correction.
