SG8 6HH.

Dear Sir,

I live adjacent to Melbourn Primary School field, in fact this field surrounds our property on two sides which is not a problem except for one thing.

Ever since we moved here [redacted] Ivy and trees growing against our boundary have been a real nuisance.

Up until about 5 years ago we managed to cope with Ivy growing through, under and over our fences by various means. [redacted]

The School say their budget cannot stretch to dealing with the problem whilst the County Council tell us the school fields are private and nothing to do with them which I find hard to believe.

If you could help to get this problem sorted it would be greatly appreciated. We could perhaps help towards costs entailed with dealing and clearing if not too expensive.

Yours sincerely,
[redacted]
