Dear Abbie

As discussed we are quoting to clear the access roadway to the rear of New Rd Cemetery, this is very badly overgrown & needs clearing right back to the hedges. If you just trim it back there is such an infestation of bramble it will just grow back again straight away.

We would remove any bigger material from site, chipping/mulching the majority of the vegetation.

Signs & tape etc would be used to protect the general public whilst we were working on site.

We would clear from the top of Water Lane to the boundary hedge of the cemetery as we talked about.
