

MA073 2627d) St Georges Allotments Levelling Quotes

For health and safety and access purposes for plot holders, contractors, Allotment Association, and MPC staff, it has been suggested that the rear pathways that adjoin the B plots on the southern side of the site (which were cleared of foliage in 2025) should be levelled and cleared to re-establish the walkway. There are several steep mounds, deep holes, debris and other trip hazards.

Both Herts and Cambs and Majestic have quoted for the work; a comparison is below:

Herts & Cambs	Majestic
£1480.00 + VAT	£1900 + VAT
• Clear boundary of vegetation • Remove dead elder tree on the corner • All piles of spoil to be levelled out/ moved using a digger in accordance with ground levels • Litter pick • Any buried large or specific items of waste that surface, may removal may need to be quoted for separately. • Area left clean and tidy	• Supply a suitably sized excavator (digger) and experienced operator. • Clear a 2-metre-wide pathway along the allotment boundary. • Remove and consolidate bulky green waste, including vegetation, brash, and other organic material obstructing the proposed pathway. • Spread any suitable composted material generated on site to create a level and even pathway where practicable. • Leave the pathway clear, accessible, and graded to provide a continuous 2-metre-wide route. • Remove any unsuitable waste material from site unless otherwise instructed by the client. • Reinstate any areas disturbed during the works to a tidy condition.

Recommendation:

Instruct Herts & Cambs to complete the work at a cost of £1,480 + VAT, to be taken from the unplanned maintenance budget.
