MA101 2627b) Small Electricals Recycling

Background Due to a major fire at the allocated recycling plant in April 2026 the pink recycling bin has been removed from service in the High Street car park.

The bin offered residents that are unable to travel the opportunity to recycle their unwanted small electrical items.

Information on the pink bin scheme: https://recycleyourelectricals.org.uk/

Melbourn Parish Council have received a number of requests for information as to where the pink bin has gone and when it will be returning.

Consideration Committee to consider any suitable actions to assist the community at this time – discuss if a temporary collection point could be created with MPC delivering any goods to Thriplow Recycling Centre.
